yes. The receiving institution took care of everything from the beginning, we received all the information we needed and they offered the support and information we needed before, ~~and~~ during ~~and~~ our stay.

2. Please Write to what extent the course program contributed to your Professional development ? How do you hope to change your practice as a result of this training?

I felt that it was time to change something about my methods and approaches in order to foster children's motivation, but I didn't know where to begin from and what exactly to change. This training course gave me some answers and some perspectives.

3. What did you like most about this training?

I liked that it was well organised, the topic was interesting and the activities were according to the program stated and our needs as teachers and institution representatives, the trainers paid attention to our suggestions, and the cultural visits programme was indeed amazing.

4. What aspects of the training could be improved?

I wish more people will attend this training course and it would be easier if they had a website or a facebook page.

5. Please write your opinions regarding the organisation (Accommodation, Cultural visits, Meals etc)

The accommodation was very good and well located, the meals we had were in the best restaurants from the old part of the city and were always traditional and in an exquisite place full of history. The cultural visits were well organised and we enjoyed the guide's explanation.

6. Please write at least three innovative tools or apps you learnt through this course. And how do you plan to use them in your classes?

I have known about Edmodo and Google Drive and how to use them but now I can exchange documents and information because my colleagues have them too.

Besides that I found Popplet very useful for my presentations and I am planning to use it in a demonstrative class along with Kahoot and Mentimeter.

7. What do you think about effectiveness of the course trainers and leaders?

The training course was very efficient, the topic was very interesting and the experience met our expectations and more. The trainers ^{were} very well prepared and paid attention to each and every detail.
